

## TECHNICAL DATA SHEET

Nickel Chloride Hexahydrate | CAS 7718-54-9

### 1. Product Identification

|                  |                                                    |
|------------------|----------------------------------------------------|
| Product Name     | Nickel Chloride Hexahydrate                        |
| CAS Number       | 7718-54-9                                          |
| Synonyms         | NiCl2·6H2O, Nickel(II) chloride, Nickel dichloride |
| Category         | Inorganic Salt                                     |
| Available Grades | Technical/98%/LR/AR                                |
| HSN Code         | 2827.39                                            |

### 2. Physical & Chemical Properties

|                   |              |
|-------------------|--------------|
| Molecular Formula | —            |
| Molecular Weight  | —            |
| Appearance        | Refer to TDS |
| Density           | N/A          |
| Boiling Point     | N/A          |
| Melting Point     | N/A          |
| Flash Point       | N/A          |
| Solubility        | N/A          |

### 3. Applications

• Nickel electroplating • Chemical synthesis • Analytical reagent • Catalyst

### 4. Industries Served

Electroplating, Chemical, Research

### 5. Packing & Supply

Standard industrial packing. Bulk and customised packing available on request. Export supply with full documentation (COA, MSDS, COO, Packing List).

Values are typical and given in good faith as a guide to product characteristics; they do not constitute a specification or guarantee. Refer to the batch COA for certified values.
